

REMARKS

Entry of this Amendment in supplement to the Amendment filed on February 3, 2005 is respectfully requested.

By the present Amendment, new dependent claims 29-62 are added to define further features of the present invention in dependent form. With regard to this, it is noted that the present Amendment does not change the independent claims, and further noted that only a minor correction is made to previously presented dependent claim 19 to correct its dependency. Accordingly, the present Supplemental Amendment does not effect the previously filed claims, but simply adds a number of further dependent claims to better cover more specific features of the invention. As such, entry of this Supplemental Amendment is respectfully requested.

If the Examiner believes that there are any other points which may be clarified or otherwise disposed of either by telephone discussion or by personal interview, the Examiner is invited to contact Applicants' undersigned attorney at the number indicated below.

To the extent necessary, Applicants petition for an extension of time under 37 CFR 1.136. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to the Antonelli, Terry, Stout & Kraus, LLP Deposit Account No. 01-2135 (Docket No. 1344.40118X00), and please credit any excess fees to such deposit account.
